

DID YOUR GRANDPARENTS COME TO CANADA FROM ITALY?

WE WANT TO HEAR FROM YOU!

The Institute for Diaspora Research and Engagement (IDRE) at Simon Fraser University, in partnership with Il Centro (Italian Cultural Centre) is conducting a study on third generation Italian Canadians.

The purpose of the research is to better understand how young Italian Canadians understand their own identity, and their relationship with their roots and community. We are currently seeking participants for our research exploring these questions. Your identity will be kept confidential.
